VINAYAK VARSHNEY

Artificial Intelligence and Machine Learning Engineer

9068267190 | vinayak.varshney.dev@gmail.com | https://www.linkedin.com/in/vinayak-varshney-628991308/

Mumbai

EDUCATION

Bachelor of Technology - Artificial Intelligence and Machine Learning

SIT- Symbiosis Institute of Technology

01/2024 - 01/2028

PCM+CS

Delhi Public School, Vasant Kunj

01/2022 - 01/2024

PROJECTS

Identi-Check

11/2024 - Present | Pune

IdentiCheck is designed to streamline student attendance tracking in colleges using advanced facial recognition technology. Professors can effortlessly take a class photograph using their smartphone and upload it directly to the app. The system then processes the image, identifying students by leveraging feature vector-based facial recognition. Attendance is automatically marked, eliminating the need for traditional manual roll calls.

Pulse AI

11/2024 - Present

I've always wanted an AI assistant that worked exactly the way I do, so I decided to build my own. Pulse AI is a personal AI assistant I created in Python that lives right on my laptop.
My goal was to make something more than just a Q&A bot. I used the Hugging Face Transformers library to give it a powerful Large Language Model for a brain, so it can understand context and have natural conversations. I then built a voice interface so I can talk to it, and connected it to my system to do useful things, it can control my Spotify, take a quick screenshot, or look something up on Google for me. It was an awesome project for blending NLP, system automation, and API integration.
Tech Stack: Python, PyTorch, Hugging Face Transformers, SpeechRecognition, pyttsx3, Spotipy API, PyAutoGUI.

EXPERIENCE

Research Intern

SCAAI - Symbiosis Centre for Applied AI

07/2025 - Present | Pune, India

AI Research and Development

- Currently Working on NyayaBot using FastAPI, RAG, LLMs

Technical Executive

CodeX SIT

07/2025 - Present | Pune, India

Programming Community of SIT

- Secured 3rd Position in BitBlitz Hackathon Organised by CodeX and Cyber Blockchain Club in SIT
- Helped Organize Workshops

Technical Team Member

AI Club - SIT Pune

10/2024 - Present | Pune, India

AI Specific Technical Club

- Helped organize the AI Club techfest event at SIT

Student Coordinator

Entrepreneurship Promotion & Innovation Cell - SIT Pune

09/2024 - 08/2025 | Pune, India

- Volunteered as a Student Coordinator in Smart India Hackathon (SIH) being conducted in SIT
- Helped Organised Startup-Con-4.0
- Conducted an Event in Startup-Con-4.0 collecting a revenue of ₹3540 in under 4 hours

CERTIFICATION

IBM Data Science Specialization

IBM

Google Cybersecurity

Google

LANGUAGES

English	Native
Hindi	Native
German	Advanced

SUMMARY

Enthusiastic engagement in artificial intelligence and machine learning is demonstrated through academic pursuits and hands-on projects, aligning with a commitment to innovating impactful solutions. A strong foundation in technical skills is combined with active involvement in extracurricular initiatives, reflecting a passion for advancing knowledge in technology. A collaborative spirit is embraced, aiming to contribute meaningfully towards goals that enhance technological development and enrich user experiences.

SKILLS

Python | **Machine Learning** | **Scikit-Learn** | **TensorFlow** | **PyTorch** | **Neural Networks** | **Natural Language Processing** | **Retrieval-Augmented Generation** | **Huggingface**

Bash | **C programming** | **HTML** | **CSS** | **MySQL**
